

Checklist for Home Demo & Install

- Remove any small/loose items from the area before install/demo date
- Remove all breakables and anything you cherish from tables, cabinets or anywhere work is being done
- Remove any items hanging on the walls in work area and put in a secure area to prevent them from falling.
- Remove all jewelry and money from work area.
Please Note: B-Floored is not responsible for these items if left out
- Unusual or large items such as fish tanks, pianos, grandfather clocks, gun safes, pool tables, etc. will not be moved by B-Floored
- Disconnect and move any computers, televisions and any other types of electronics out of work area. **Please Note: Installers will not disconnect or reconnect these items.*
- Strip all bedlinens and drain waterbeds if needed.
- Pets should be placed outside or boarded depending on the scale of work being done.

Additional Instructions for Ceramic or Wood Demo:

- Turn off and leave off your A/C unit until the job is completed and has been cleaned up. *This keeps dust from traveling through A/C unit to the rest of the house.*
- Recommend having a cleaning service in after any demo in your house and changing out air filters. *Demos can cause a lot of dust and windows, blinds, ceiling fans and etc. should be cleaned after work is done – please ask for B-Floored suggested vendor list if needed.*
